Proposal to resolution on:

- A. option program for a key consultant in subsidiary; and**
- B. directed issue of warrants and approval of transfer of warrants**

Background

The board of directors of Realfiction Holding AB, Reg. No. 559110-4616 (the “**Company**”) proposes that the annual general meeting on 27 June 2022 resolves to adopt an option program for a key consultant in Taiwan providing services to the Company’s wholly owned subsidiary Realfiction Lab ApS (the “**Lab Subsidiary**”), (the “**Consultant Option Program 2022**”).

To implement the Consultant Option Program 2022, the board of directors proposes that the annual general meeting resolves on (A) option program for a key consultant in subsidiary; and (B) directed issue of warrants and approval of transfer of warrants.

A. Proposal on option program for a key consultant in subsidiary

The board of directors proposes that the annual general meeting resolves to adopt the Consultant Option Program 2022 in accordance with the following substantial guidelines:

1. The Consultant Option Program 2022 shall comprise a maximum of 100,000 options.
2. Each option entitles the holder a right to acquire one new share in the Company against cash consideration at a subscription price of SEK 12 per share.
3. The Consultant Option Program 2022 shall only include one key consultant in Taiwan providing services to the Lab Subsidiary.
4. Allotment shall take place no later than 15 July 2022.
5. The allotted option shall be subject to both a time-based vesting and a performance-based vesting as follows.

A pre-condition for any options being vested is that the participant is still providing services to the Lab Subsidiary on 31 January 2024. In addition to the time-based vesting condition, vesting is further conditional upon that four performance-targets are met, where the fulfilment of each performance target will entitle to vesting of 25 per cent of the total number of options allotted. The four performance targets relate to development and manufacturing milestones of holo-

graphic displays using the Lab Subsidiary's ECHO technology. Vesting upon fulfilment of a performance target is also conditional upon that the participant is still providing services to the Lab Subsidiary at the date when the relevant performance target is met. However, due to the time-based vesting condition, the first vesting will in no event occur earlier than 31 January 2024 irrespective of whether a performance target is met before such date.

The performance targets will be resolved by the board of directors prior to offering the Consultant Option Program 2022 to the participant. The board of directors intends to present the determined performance targets in connection with the expiration of Consultant Option Program 2022 at the latest.

6. The options shall not constitute securities and shall not be possible to transfer or pledge. However, in the event of death, the rights to vested options shall accrue to the beneficiaries of the holder of the options.
7. The options shall be allotted without consideration.
8. The holder can exercise allotted and vested options during 30 days from the day following after the announcement of the Company's quarterly reports. If the Company does not render any quarterly report or year-end report after the end of any calendar quarter, the allotted and vested options may instead be exercised during the last month of the following calendar quarter. The options may in no event be exercised later than 31 December 2027.
9. In the event of a public take-over offer, asset sale, liquidation, merger or any other such transaction affecting the Company, the board of directors shall be entitled to resolve that the options shall vest and be exercisable (in whole or in part) on completion of such transaction. The board of directors will make this resolution based on the level of achievement of the performance targets at such time and any other factors deemed relevant by the board of directors.
10. The options shall be governed by a separate agreement with the participant. The Company's CEO shall be responsible for the preparation and management of the Consultant Option Program 2022 in accordance with the above-mentioned substantial terms and guidelines.

B. Proposal to resolution on a directed issue of warrants and approval of transfer of warrants

In order to enable the Lab Subsidiary's delivery of shares under the Consultant Option Program 2022, the board of directors proposes that the annual general meeting resolves on a directed issue of warrants and approval of transfer of warrants. The board of directors thus proposes that the annual general meeting resolves on a directed issue of a maximum of 100,000 warrants in accordance with the following terms and conditions:

1. With deviation from the shareholders' preferential rights, the warrants may only be subscribed for by the Lab Subsidiary. The reason for the deviation from the

shareholders' preferential rights is that the warrants are issued as part of the implementation of Consultant Option Program 2022. In the light of what has been stated under the Section "*Reasons for the Consultant Option Program 2022 and the deviation from the shareholders' preferential rights*" below, the board of directors considers that it is for the benefit of the Company and its shareholders that the key consultant is offered to participate in the Consultant Option Program 2022.

2. Subscription shall be made no later than 15 July 2022.
3. Over subscription cannot occur.
4. The warrants shall be issued to the Lab Subsidiary at a subscription price corresponding to the fair market value of the warrants at the time of subscription, which shall be determined in accordance with the Black & Scholes valuation formula.
5. Payment for the warrants shall be made against cash consideration no later than one week from the time of subscription.
6. The warrants and the exercise of the subscription rights are subject to the enclosed terms and conditions for the warrants 2022/2027; **Appendix A**, (the "**Warrant Terms and Conditions**"). The Warrant Terms and Conditions states among others:
 - (a) that each warrant entitles to subscription of one share in the Company at a subscription price of SEK 12 per share. The part of the subscription price exceeding the share quotient value shall be added to the free share premium reserve;
 - (b) that subscription of shares by virtue of the warrants may be made from registration with the Swedish Companies Registration Office up to and including 31 December 2027;
 - (c) that the subscription price and the number of shares that each warrant entitles right to subscribe for are subject to customary recalculation in accordance with Clause 8 of the Warrant Terms and Conditions;
 - (d) that the period when the subscription right may be utilized may be brought forward or postponed in accordance with Clause 8 of the Warrant Terms and Conditions; and
 - (e) that the shares issued upon utilization of a warrant shall confer right to dividends in accordance with Clause 7 of the Warrant Terms and Conditions.

7. If all warrants are exercised for subscription of new shares, the share capital will increase with SEK 10,000.
8. The Company's CEO shall be entitled to make such minor adjustments of the issue resolution that might be necessary in connection with registration with the Swedish Companies Registration Office.

Further, the board of directors proposes that the annual general meeting resolves to approve that the Lab Subsidiary may transfer warrants to the participant in the Consultant Option Program 2022 without consideration in connection with the exercise of options in accordance with the terms and conditions under Section A above or otherwise dispose over the warrants to secure the Company's or the Lab Subsidiary's commitments and costs in relation to the Consultant Option Program 2022.

Reasons for the Consultant Option Program 2022 and the deviation from the shareholders' preferential right

The reasons for the implementation of the Consultant Option Program 2022 and the deviation from the shareholders' preferential rights are to be able to create possibilities for the Company to retain a competent key consultant through the offering of a long-term ownership engagement for the consultant. Such ownership engagement is expected to increase the consultant's commitment to the Company's operations, strengthen the loyalty to the Company and be beneficial for the Company as well as its shareholders.

The vesting schedule proposed for the Consultant Option Program 2022 means that full vesting can occur earlier than 3 years from the date of grant, where it is noted that the actual time of vesting is conditional upon if and when the performance targets are met. This constitutes a deviation from section III.1 in the Swedish Corporate Governance Board's "*Rules on Remuneration of the Board and Executive Management on Incentive Programs*". The reasons for the deviation is that the board of directors considers that the proposed vesting schedule is adequate given the overall purpose to incentivize the participant in working towards achieving the performance target as soon as possible. When proposing the terms, the board of directors has also considered the fact that the participant is active in Taiwan and that market practice for incentive programs in Taiwan differs from market practice in Sweden.

Costs, impact on key ratios, dilution and previous incentive programs etc.

The Consultant Option Program 2022 will be accounted for in accordance with the Swedish Annual Accounts Act and the Swedish Accounting Standards Board's General Advice BFNAR 2012.1 (K3) that stipulates that the options shall be expensed as costs over the vesting period and will be accounted for directly against equity. Costs from options ac-

counted for in accordance with the Swedish Annual Accounts Act and the Swedish Accounting Standards Board's General Advice BFNAR 2012:1 (K3) do not affect the Company's cash flow. The board of directors has made the assessment that the Consultant Option Program 2022 will not trigger any social costs for the Company. Costs related to the Consultant Option Program 2022 will be accounted for during the performance vesting period that is expected to be 2 years. The board of directors has calculated a theoretical value of the options using the Black & Scholes formula. Assuming a share price at the time of allocation of the options of SEK 10.98, the value of each option has been calculated to SEK 2.66 and the total cost for the Consultant Option Program 2022 is estimated to approximately SEK 266,000 before tax during the period 2022-2024. It shall be noted that the calculations are based on preliminary assumptions (a share price at the time of the allocation of the options of SEK 10.98, an exercise price of SEK 12, a risk-free interest of 1.254 per cent, an expected dividend of SEK 0 and an assumed volatility of 41.55 per cent) and are only intended to provide an illustration of the outcome.

As per the date of the notice, the number of shares in the Company amounts to 19,737,847. In addition, there are four incentive programs for employees, consultants and board members outstanding in the Company in the form of three warrant programs and one option program. Upon full exercise of all warrants issued in relation to the four outstanding incentive programs, in the aggregate 691,531 new shares will be issued.

In case all warrants issued in connection with this proposal are exercised for subscription of new shares, a total of 100,000 new shares will be issued, which corresponds to a dilution of approximately 0.48 per cent of the Company's share capital and votes after full dilution, calculated on the number of shares that will be added upon full utilization of all warrants issued under this proposal and all warrants issued in relation to existing incentive programs. The dilution would only have had a marginal impact on relevant key figures for the full year 2021.

In case all warrants outstanding in relation to outstanding incentive programs as well as the warrants proposed to be issued in relation to this proposal are exercised for subscription of shares, a total of 791,531 new shares will be issued, which corresponds to a dilution of approximately 3.86 per cent of the Company's share capital and votes after full dilution, calculated on the number of shares that will be added upon full utilization of all warrants issued under this proposal and all warrants issued in relation to existing incentive programs.

The above calculations regarding dilution and impact on key ratios are subject to re-calculation of the warrants in accordance with the customary recalculation terms set out in the complete terms and conditions for the warrants.

Preparation of the proposal

This proposal has been prepared by the board of directors.

Majority requirements

The proposals in accordance with Sections A-B above shall be resolved upon as one resolution by the annual general meeting. A valid resolution requires that the proposal is supported by shareholders with at least nine-tenths of the votes cast as well as of all shares represented at the meeting.

Appendix A¹

Terms and conditions for warrants 2022/2027 in Realfiction Holding AB

1. Definitions

In these terms and conditions:

“banking day”	means a day that is not a Saturday, Sunday or another public holiday in Sweden, or which as regards the payment of promissory notes is not equated with a public holiday in Sweden.
“the Companies Act”	means the Swedish Companies Act (<i>Sw. aktiebolagslagen (2005:551)</i>).
“Euroclear”	means Euroclear Sweden AB.
“the company”	means Realfiction Holding AB, Reg. No. 559110-4616.
“market quotation”	means, in relation to any shares, securities or other rights, that the relevant shares, securities or rights are listed on a stock exchange, authorised market place, regulated market, other multilateral trading facility (MTF) or a similar market place.
“securities account”	means a securities account (<i>Sw. värdepapperskonto</i> (‘avstämningskonto’)) with Euroclear on which the respective warrant holders’ holdings of warrants are registered or, as the case may be, shares in the company issued pursuant to subscription are to be registered.
“subscription”	means subscription, upon exercise of warrants, for new shares in the company in exchange for cash payment in accordance with these terms and conditions.
“subscription period”	means the period during which subscription can be made according to these terms and conditions.

¹ Note to Draft: To be finalized once overall terms are finalized.

“subscription price”	means the price at which subscription can be effected according to these terms and conditions.
“warrant”	means a right to subscribe for new shares in the company in exchange for cash payment in accordance with these terms and conditions.
“warrant certificate”	means a written certificate issued to a certain person that the company has issued as bearer of the warrant.
“warrant holder”	means the holder of a warrant certificate.

2. Number of warrants etc.

The number of warrants shall not exceed 100,000.

The company will keep a warrant book for the warrants. A warrant holder can however always request that the company issues physical warrant certificates.

Issued warrant certificates may be submitted to the company for exchange and change to warrant certificates in other denominations.

The company undertakes to effectuate subscriptions in accordance with these terms and conditions.

3. Right to subscribe for new shares

Each warrant entitles to subscription of one share in the company at a subscription price amounting to SEK 12. The part of the subscription price exceeding the share quotient value shall be added to the free share premium reserve.

The subscription price as well as the number of shares that each warrant confers right to subscribe for can be subject to adjustment in accordance with the provisions of Clause 8 below. If the application of these provisions should result in a subscription price lower than the quotient value at that time of the then outstanding shares, the subscription price shall instead equal the quotient value at that time of the then outstanding shares.

4. Subscription

Subscription of shares by virtue of the warrants may be from registration with the Swedish Companies Registration Office up to and including 31 December 2027.

The subscription period can be brought forward or postponed in accordance with the provisions of Clause 8 below.

Subscription may only be made for the whole number of shares that the total number of warrants, which are exercised by the same warrant holder at one and the same time, confer right to subscribe for.

Subscription is made by submitting an application form (subscription list) in the form stipulated and provided by the company, duly completed and signed, together

with warrant certificates representing the warrants that are used for subscription to the company at the address specified in the application form.

Should such application form (subscription list) not have been received by the company, together with above mentioned warrant certificates, within the subscription period, the warrants shall lapse.

Subscription is binding and may not be revoked.

5. Payment

Payment for the number of shares for which the subscription relates shall be made simultaneously with the subscription. The payment shall be made in cash to the bank account specified in the application form (subscription list).

6. Effectuation of subscription

Subscription is effected following subscription and payment made in accordance with Clauses 4 and 5 above. Any fractions of warrants that may not be exercised for subscription pursuant to the third paragraph of Clause 4 above will then be disregarded from. Such fractions shall lapse upon subscription.

Subscription is effected through a resolution of the board of directors of the company to allot the new shares to the warrant holder, whereafter the new shares are recorded in the company's share ledger (which is kept by Euroclear) and on the warrant holder's securities account as interim shares. Following completion of registration with the Swedish Companies Registration Office (*Sw. Bolagsverket*), the recordings of the new shares in the share ledger and on the securities account become final.

As stated in Clause 8 below, subscription may in certain cases be effected only after a certain date, and with the application of a recalculated subscription price and a recalculated number of shares that each warrant confers right to subscribe for.

7. Dividends on new shares

A share issued pursuant to subscription confers right to dividends from the first record date for dividends that occurs following effectuation of the subscription to such extent that the share has been recorded as interim share in the company's share ledger.

8. Recalculation of subscription price and number of shares, etc.

8.1 Bonus issue

If the company effects a bonus issue, then subscription made at such date that it cannot be effected to such extent that shares issued pursuant to the subscription can be recorded as interim shares in the company's share ledger on the seventeenth calendar day prior to the shareholders' meeting to consider the bonus issue at the latest shall be effected after the resolution on the issue of the shareholders' meeting.

Shares issued pursuant to subscription effected after the issue resolution do not confer right to participate in the bonus issue.

If the bonus issue is completed, a recalculated subscription price and a recalculated number of shares that each warrant confers right to subscribe for shall apply to subscription effected after the issue resolution. The recalculations shall be made by the company in accordance with the following formulas:

(recalculated subscription price) = (previous subscription price) x (the number of shares in the company prior to the bonus issue) / (the number of shares in the company after the bonus issue)

(recalculated number of shares that each warrant confers right to subscribe for) = (the previous number of shares that each warrant confers right to subscribe for) x (the number of shares in the company after the bonus issue) / (the number of shares in the company prior to the bonus issue)

When recalculation shall be made as above-mentioned, the recalculated subscription price and the recalculated number of shares that each warrant confers right to subscribe for shall be fixed by the company two banking days after the issue resolution at the latest, and final registration in the share ledger and on securities accounts of shares issued pursuant to subscription will be made after the record date of the bonus issue. Prior thereto, such shares are recorded only provisionally in the share ledger and on securities accounts and do not confer right to participate in the bonus issue.

8.2 Consolidation or split-up

If the company effects a consolidation or split-up of its shares, then subscription made at such date that it cannot be effected to such extent that shares issued pursuant to the subscription can be recorded as interim shares in the company's share ledger on the seventeenth calendar day prior to the shareholders' meeting to consider the consolidation or split-up at the latest shall be effected after the resolution on the consolidation or split-up of the shareholders' meeting.

Shares issued pursuant to subscription effected after the consolidation or split-up resolution are not affected by the consolidation or split-up.

If the consolidation or split-up is completed, a recalculated subscription price and a recalculated number of shares that each warrant confers right to subscribe for shall apply to subscription effected after the consolidation or split-up resolution. The recalculations shall be made by the company in accordance with the following formulas:

(recalculated subscription price) = (previous subscription price) x (the number of shares in the company prior to the consolidation or split-up) / (the number of shares in the company after the consolidation or split-up)

(recalculated number of shares that each warrant confers right to subscribe for) = (the previous number of shares that each warrant confers right to subscribe for) x (the number of shares in the company after the consolidation or split-up / (the number of shares in the company prior to the consolidation or split-up)

When recalculation shall be made as above-mentioned, the recalculated subscription price and the recalculated number of shares that each warrant confers right to subscribe for shall be fixed by the company two banking days after the consolidation or

split-up resolution at the latest, and final registration in the share ledger and on securities accounts of shares issued pursuant to subscription will be made after the consolidation or split-up having been registered with Euroclear. Prior thereto, such shares are recorded only provisionally in the share ledger and on securities accounts and are not affected by the consolidation or split-up.

8.3 New issue of shares

If the company effects a new issue of shares with preferential rights for the shareholders to subscribe for the new shares against cash payment or payment by way of set-off, the following shall apply as regards effectuation of subscription and the right to participate in the issue conferred by shares issued pursuant to subscription:

- (a) If the issue is resolved by the board of directors subject to the approval of the shareholders' meeting or pursuant to prior authorisation by the shareholders' meeting, then the latest date on which subscription shall have been effected in order for a share issued pursuant to subscription to confer right to participate in the issue shall be stated in the issue resolution. Such date may not fall earlier than on the tenth calendar day after public disclosure of the board of directors' issue resolution or, if the resolution is not made public, after notice of the board's issue resolution to the option holders. Subscription made at such date that it cannot be effected to such extent that shares issued pursuant to the subscription can be recorded as interim shares in the company's share ledger on the said date at the latest shall be effected after that date.

Shares issued pursuant to subscription effected after the above-mentioned date do not confer right to participate in the new issue.

- (b) If the issue is resolved by the shareholders' meeting, then subscription made at such date that it cannot be effected to such extent that shares issued pursuant to the subscription can be recorded as interim shares in the company's share ledger on the seventeenth calendar day prior to the shareholders' meeting to consider the issue at the latest shall be effected after the resolution on the issue of the shareholders' meeting.

Shares issued pursuant to subscription effected after the issue resolution do not confer right to participate in the new issue.

If the new issue is completed, a recalculated subscription price and a recalculated number of shares that each warrant confers right to subscribe for shall apply to subscription effected at such date, that shares issued pursuant to such subscription do not confer right to participate in the new issue. The recalculations shall be made by the company in accordance with the following formulas:

$$\text{(recalculated subscription price)} = \text{(previous subscription price)} \times \left(\frac{\text{(the average market price of the share during the subscription period fixed pursuant to the issue resolution ("the average share price"))}{\text{(the average share price)} + \text{(the theoretical value of the subscription right ("the value of the subscription right"))}} \right)$$
$$\text{(recalculated number of shares that each warrant confers right to subscribe for)} = \text{(the previous number of shares that each warrant confers right to subscribe for)} \times$$

$$\frac{((\text{the average price of the share}) + (\text{the value of the subscription right}))}{(\text{the average share price})}$$

The average share price shall be deemed to equal the average of the mean of the highest and lowest prices paid for the share each trading day during the subscription period fixed pursuant to the issue resolution according to the exchange list on which the share is primarily quoted. In the absence of quoted price paid, the quoted bid price shall be included in the calculation instead. If neither paid price nor bid price is quoted on a given day, that day shall be excluded from the calculation.

The value of the subscription right shall be calculated in accordance with the following formula, provided that the value of the subscription right shall be deemed to be zero if the resulting value is negative:

$$\frac{(\text{the value of the subscription right}) = (\text{the maximum number of new shares that can be issued according to the issue resolution}) \times ((\text{the average share price}) - (\text{the subscription price for each new share}))}{(\text{the number of shares in the company prior to the new issue})}$$

When recalculation shall be made as above-mentioned, the recalculated subscription price and the recalculated number of shares that each warrant confers right to subscribe for shall be fixed by the company two banking days after the expiry of the subscription period fixed pursuant to the issue resolution at the latest, and final registration in the share ledger and on securities accounts of shares issued pursuant to subscription will be made after the recalculations having been fixed. Prior thereto, subscription is effected only provisionally – with application of the subscription price and the number of shares that each warrant confers right to subscribe for applicable prior to the recalculations – and the shares are recorded only provisionally in the share ledger and on securities accounts, together with a note that the number of shares so provisionally registered may be increased upon final registration, and do not confer right to participate in the issue.

8.4 Issue of warrants or convertibles

If the company effects an issue of warrants (share options) or convertibles with preferential rights for the shareholders to subscribe for such warrants or convertibles against cash payment or payment by way of set-off or, as regards warrants, without payment, the provisions of (a) and (b) of the first paragraph of Clause 8.3 shall apply analogously as regards effectuation of subscription and the right to participate in the issue conferred by shares issued pursuant to subscription.

If the issue is completed, a recalculated subscription price and a recalculated number of shares that each warrant confers right to subscribe for shall apply to subscription effected at such date, that shares issued pursuant to such subscription do not confer right to participate in the issue. The recalculations shall be made by the company in accordance with the following formulas:

$$\frac{(\text{recalculated subscription price}) = (\text{previous subscription price}) \times (\text{the average market price of the share during the subscription period fixed pursuant to the issue resolution ("the average share price")})}{((\text{the average share price}) + (\text{the theoretical value of the subscription right ("the value of the subscription right")))}$$

$$\frac{(\text{recalculated number of shares that each warrant confers right to subscribe for}) = (\text{the previous number of shares that each warrant confers right to subscribe for}) \times ((\text{the average share price}) + (\text{the value of the subscription right})) / (\text{the average share price})$$

The average share price shall be calculated with analogous application of the provisions of Clause 8.3 above.

The value of the subscription right shall be determined based upon the change in the market value of the company's shares which may be deemed to have occurred as a consequence of the issue.

When recalculation shall be made as above-mentioned, the recalculated subscription price and the recalculated number of shares that each warrant confers right to subscribe for shall be fixed by the company two banking days after the expiry of the subscription period fixed pursuant to the issue resolution at the latest, and final registration in the share ledger and on securities accounts of shares issued pursuant to subscription will be made after the recalculations having been fixed. Prior thereto, subscription is effected only provisionally – with application of the subscription price and the number of shares that each warrant confers right to subscribe for applicable prior to the recalculations – and the shares are recorded only provisionally in the share ledger and on securities accounts, together with a note that the number of shares so provisionally registered may be increased upon final registration, and do not confer right to participate in the issue.

8.5 Certain other offers to the shareholders

If the company in other cases than those contemplated by Clauses 8.1–8.4 above (i) effects an offer to the shareholders, with preferential rights for the shareholders according to the principles of Chap. 13 Sec. 1 paragraph 1 of the Companies Act, to purchase any securities or rights from the company, or (ii) distributes to the shareholders, pursuant to such preferential right, any such securities or rights, (in both cases “the offer”), the provisions of (a) and (b) of the first paragraph of Clause 8.3 shall apply analogously as regards effectuation of subscription and the right to participate in the offer conferred by shares issued pursuant to subscription.

If the offer is completed, a recalculated subscription price and a recalculated number of shares that each warrant confers right to subscribe for shall apply to subscription effected at such date, that shares issued pursuant to such subscription do not confer right to participate in the offer. The recalculations shall be made by the company in accordance with the following formulas:

$$\frac{(\text{recalculated subscription price}) = (\text{previous subscription price}) \times (\text{the average market price of the share during the acceptance period of the offer or, in case of distribution, during the period of 25 trading days starting on the day on which the share is quoted without right to any part of the distribution (“the average share price”)) / ((\text{the average share price}) + (\text{the theoretical value of the right to participate in the offer (“the value of the purchase right”))$$

$$\frac{(\text{recalculated number of shares that each warrant confers right to subscribe for}) = (\text{the previous number of shares that each warrant confers right to subscribe for}) \times$$

$$\frac{((\text{the average share price}) + (\text{the value of the purchase right}))}{(\text{the average share price})}$$

The average share price shall be calculated with analogous application of the provisions of Clause 8.3 above.

If the shareholders receive purchase rights and these are subject to market quotation, the value of the purchase right shall be deemed to equal the average of the mean of the highest and lowest prices paid for the purchase right each trading day during the acceptance period of the offer according to the exchange list on which the purchase right is primarily quoted. In the absence of quoted price paid, the quoted bid price shall be included in the calculation instead. If neither paid price nor bid price is quoted on a given day, that day shall be excluded from the calculation.

If the shareholders do not receive any purchase rights, or if the purchase rights are not subject to market quotation, but the securities or rights being the subject of the offer either are already subject to market quotation or become subject to market quotation in connection with the offer, the value of the purchase right shall be deemed to equal (i) if the securities or rights are already subject to market quotation, the average of the mean of the highest and lowest prices paid for such security or right each trading day during the acceptance period of the offer or, in case of distribution, during the period of 25 trading days starting on the day on which the share is quoted without right to any part of the distribution according to the exchange list on which the security or right is primarily quoted, less any consideration payable for them in connection with the offer, or (ii) if the securities or rights become subject to market quotation in connection with the offer, the average of the mean of the highest and lowest prices paid for such security or right each trading day during the period of 25 trading days starting on the first day of such market quotation according to the exchange list on which the security or right is primarily quoted. In the absence of quoted price paid, the quoted bid price shall be included in the calculation instead. If neither paid price nor bid price is quoted on a given day, that day shall be excluded from the calculation. When the value of the purchase right shall be determined pursuant to (ii) of this paragraph, then in the recalculation of the subscription price and the number of shares that each warrant confers right to subscribe for in accordance with the above formulas the average share price shall relate to the 25-trading day period mentioned in (ii) of this paragraph instead of the period mentioned in the above formulas.

If the shareholders do not receive any purchase rights, or if the purchase rights are not subject to market quotation, and the securities or rights being the subject of the offer neither already are subject to market quotation nor become subject to market quotation in connection with the offer, the value of the purchase right shall to the extent possible be determined based upon the change in the market value of the company's shares which, according to an independent valuer retained by the company, may be deemed to have occurred as a consequence of the offer.

When recalculation shall be made as above-mentioned, the recalculated subscription price and the recalculated number of shares that each warrant confers right to subscribe for shall be fixed by the company two banking days after the expiry of the period during which the average share price shall be calculated for the above recalculations at the latest, and final registration in the share ledger and on securities accounts of shares issued pursuant to subscription will be made after the recalculations having

been fixed. Prior thereto, subscription is effected only provisionally – with application of the subscription price and the number of shares that each warrant confers right to subscribe for applicable prior to the recalculations – and the shares are recorded only provisionally in the share ledger and on securities accounts, together with a note that the number of shares so provisionally registered may be increased upon final registration, and do not confer right to participate in the offer.

8.6 Extraordinary dividends

If the company pays cash dividends to the shareholders with an amount per share that, together with other cash dividends paid during the same financial year, exceeds ten per cent of the average market price for the share during a period of 25 trading days immediately prior to the day when the board of directors of the company announces its intention to propose such dividends to the shareholders' meeting (which average market price shall be calculated in accordance with the provisions in Clause 8.3 above), subscription made at such date that it cannot be effected to such extent that shares issued pursuant to the subscription can be recorded as interim shares in the company's share ledger on the seventeenth calendar day prior to the shareholders' meeting to consider the dividends at the latest shall be effected after the resolution on the dividends of the shareholders' meeting.

Shares issued pursuant to subscription effected after the dividend resolution do not confer right to receive any part of the dividend.

If the payment of the dividends is completed, a recalculated subscription price and a recalculated number of shares that each warrant confers right to subscribe for shall apply to subscription effected at such date, that shares issued pursuant to such subscription do not confer right to receive any part of the dividends. The recalculations shall be based on the part of the aggregate cash dividends per share that exceeds ten per cent of the company's average market price during the above mentioned period (the "extraordinary dividend") and be made by the company in accordance with the following formulas:

$$\text{(recalculated subscription price)} = \text{(previous subscription price)} \times \text{(the average market price of the share during the period of 25 trading days starting on the day on which the share is quoted without dividend ("the average share price"))} / \text{((the average share price) + (the extraordinary dividend paid per share))}$$
$$\text{(recalculated number of shares that each warrant confers right to subscribe for)} = \text{(the previous number of shares that each warrant confers right to subscribe for)} \times \text{((the average share price) + (the extraordinary dividend paid per share))} / \text{(the average share price)}$$

The average share price shall be calculated with analogous application of the provisions of Clause 8.3 above.

When recalculation shall be made as above-mentioned, the recalculated subscription price and the recalculated number of shares that each warrant confers right to subscribe for shall be fixed by the company two banking days after the expiry of the above-mentioned 25-trading day period at the latest, and final registration in the share ledger and on securities accounts of shares issued pursuant to subscription will

be made after the recalculations having been fixed. Prior thereto, subscription is effected only provisionally – with application of the subscription price and the number of shares that each warrant confers right to subscribe for applicable prior to the recalculations – and the shares are recorded only provisionally in the share ledger and on securities accounts, together with a note that the number of shares so provisionally registered may be increased upon final registration, and do not confer right to participate in the offer.

8.7 Reduction of the share capital

If the company effects a reduction of its share capital with repayment to the shareholders (with or without redemption of shares), and such reduction is compulsory, then subscription made at such date that it cannot be effected to such extent that shares issued pursuant to the subscription can be recorded as interim shares in the company's share ledger on the seventeenth calendar day prior to the shareholders' meeting to consider the reduction at the latest shall be effected only after the resolution on the reduction of the shareholders' meeting.

Shares issued pursuant to subscription effected after the reduction resolution do not confer right to receive any part of the repayment and are not affected by the redemption (if any).

If the reduction is completed, a recalculated subscription price and a recalculated number of shares that each warrant confers right to subscribe for shall apply to subscription effected after the reduction resolution. The recalculations shall be made by the company in accordance with the following formulas:

$$\text{(recalculated subscription price)} = \text{(previous subscription price)} \times \frac{\text{(the average market price of the share during the period of 25 trading days starting on the day on which the share is quoted without right to repayment ("the average share price"))}}{\text{(the average share price)} + \text{(the actual amount repaid per share)}}$$

$$\text{(recalculated number of shares that each warrant confers right to subscribe for)} = \text{(the previous number of shares that each warrant confers right to subscribe for)} \times \frac{\text{(the average share price)}}{\text{(the average share price)} + \text{(the actual amount repaid per share)}}$$

If the reduction is carried out through redemption of shares, then instead of using the actual amount repaid per share in the above-mentioned recalculation of the subscription price and the number of shares each warrant confers right to subscribe for, a calculated amount repaid per share determined as follows shall be applied:

$$\text{(calculated amount repaid per share)} = \frac{\text{(the actual amount repaid per share)} - \text{(the average market price of the share during the period of 25 trading days immediately preceding the day on which the share is quoted without right to participate in the reduction ("the average share price"))}}{\text{(the number of shares in the company which entitle to the reduction of one share)} - 1}$$

The average share price shall be calculated with analogous application of the provisions of Clause 8.3 above.

When recalculation shall be made as above-mentioned, the recalculated subscription price and the recalculated number of shares that each warrant confers right to subscribe for shall be fixed by the company two banking days after the expiry of the latest 25-trading days period applicable for the above recalculations to occur at the latest, and final registration in the share ledger and on securities accounts of shares issued pursuant to subscription will be made after the recalculations having been fixed. Prior thereto, subscription is effected only provisionally – with application of the subscription price and the number of shares that each warrant confers right to subscribe for applicable prior to the recalculations – and the shares are recorded only provisionally in the share ledger and on securities accounts, together with a note that the number of shares so provisionally registered may be increased upon final registration, and do not confer right to receive any amount of the repayment nor affected by the redemption (if any).

If the company effects a reduction of its share capital with repayment to the shareholders through redemption of shares, and such reduction is not compulsory and where, in the opinion of the company, such reduction due to its technical structure and financial effects is equivalent to a compulsory reduction, the above provisions in this Clause 8.7 shall apply and a recalculation of the subscription price and the number of shares to which each warrant confers right to subscribe for shall be made, to the extent possible, in accordance with the principles set forth in this Clause 8.7.

8.8 Recalculations if the company's shares are not subject to market quotation

8.8.1 If the company effects a measure contemplated by Clauses 8.3–8.5 or 8.7 above and none of the company's shares are subject to market quotation at the time of such measure, the said provisions shall apply, provided that the recalculation of the subscription price and number of shares that each warrant confers right to subscribe for shall be made at the company's sole discretion (i) either in accordance with an agreement made between the company and the warrant holders or (ii) by the company, to the extent possible, in accordance with the principles set forth in such Clause 8.3–8.5 or 8.7 above as is applicable and based on the assumption that the value of the warrants shall be left unchanged.

8.8.2 In case none of the company's shares are subject to market quotation, the following shall apply instead of the corresponding provisions in Clause 8.6 above. If the company pays cash dividends to the shareholders with an amount per share that, together with other cash dividends paid during the same financial year, exceeds 50 per cent of the company's profits after tax according to established profit and loss accounts or, as applicable, consolidated profit and loss accounts, for the financial year immediately preceding the year in which the dividend is resolved, subscription made at such date that it cannot be effected to such extent that shares issued pursuant to the subscription can be recorded as interim shares in the company's share ledger on the seventeenth calendar day prior to the shareholders' meeting to consider the dividends at the latest shall be effected after the resolution on the dividends of the shareholders' meeting.

Shares issued pursuant to subscription effected after the dividend resolution do not confer right to receive any part of the dividend.

If the payment of the dividends is completed, a recalculated subscription price and a recalculated number of shares that each warrant confers right to subscribe for shall apply to subscription effected at such date, that shares issued pursuant to such subscription do not confer right to receive any part of the dividends. The recalculations shall be based on the part of the aggregate cash dividends per share that exceeds 50 per cent of the company's above mentioned profits after tax (the "extraordinary dividend") and shall be made at the company's sole discretion (i) either in accordance with an agreement made between the company and the warrant holders or (ii) by the company, to the extent possible, in accordance with the principles set forth in such Clause 8.6 above and based on the assumption that the value of the warrants shall be left unchanged.

8.9 Alternative recalculation method

If the company effects any measure contemplated by Clauses 8.1– 8.7 above and if, in the company's opinion, application of the recalculation formulas established for such measure, taking into account the technical framework of such measure or other reasons, could not be made or would result in the warrant holders receiving, in relation to the shareholders, economic compensation that is not reasonable, the company shall make the recalculation of the subscription price and the number of shares to which each warrant confers right to subscribe for in such a manner as the company determines is appropriate to ensure that the recalculation gives a reasonable result.

8.10 Rounding off

In the recalculation of the subscription price and the number of shares that each warrant confers right to subscribe for in accordance with this Clause 8, the subscription price shall be rounded off to the nearest ten öre (SEK 0.10) where any SEK 0.05 shall be rounded upwards, and the number of shares shall be rounded off upwards to two decimals.

8.11 Compulsory acquisition

If shares in the company become subject to compulsory acquisition proceedings, the right to subscribe and to have subscription effected is regulated by the provisions of Chap. 22 of the Companies Act.

8.12 Merger

If (i) the shareholders' meeting resolves to approve a merger plan pursuant to which the company shall dissolve into another company or (ii) the board of directors of the company resolves that the company shall dissolve into its parent company, the warrant holders shall receive at least equivalent rights in the absorbing company as in the company (the absorbed company), provided the warrant holders are not entitled to have their warrants redeemed pursuant to the merger plan.

8.13 De-merger

If the shareholders' meeting resolves to approve a de-merger plan pursuant to which the company shall be divided through transfer of certain or all of the company's as-

sets and liabilities to one or several other companies, the warrant holders shall receive at least equivalent rights in the transferee company or companies, as the case may be, as in the company (the transferor company), provided the warrant holders are not entitled to have their warrants redeemed pursuant to the de-merger plan.

8.14 Winding-up

If it is resolved that the company shall be wound-up, no subscription may thereafter be made or effected. The right to subscribe and the obligation to effect subscription ceases with the winding-up resolution, regardless of the grounds for the resolution and whether the same shall have gained legal force.

If the winding-up is not carried through, subscription may again be made and effected in accordance with these terms and conditions.

No later than 30 calendar days prior to the shareholders' meeting to consider a voluntary winding-up pursuant to Chap. 25 Sec. 1 of the Companies Act, the warrant holders shall be notified of the contemplated winding-up. The notice shall contain a reminder of that no subscription may be made or effected after that the shareholders' meeting having resolved that the company shall be wound-up and also a reminder of that the subscription period is brought forward in accordance with the first paragraph below.

Notwithstanding the provisions in Clause 4 above concerning subscription period, the warrant holders have the right to subscribe and to have subscriptions effected from the date of the above-mentioned notice, provided that such subscription can be effected to such extent that shares issued pursuant to the subscription can be recorded as interim shares in the company's share ledger no later than the day before the shareholders' meeting to consider the winding-up.

8.15 Bankruptcy

If a court of law declares the company bankrupt, no subscription may thereafter be made or effected. The right to subscribe and the obligation to effect subscription ceases with the bankruptcy order, regardless of the grounds for the order and whether the same shall have gained legal force.

If the bankruptcy order is revoked, subscription may again be made and effected in accordance with these terms and conditions.

9. Notices

Notices concerning the warrants shall be sent by e-mail or regular mail to each warrant holder and any other rights holder registered under it's for the company's last known e-mail address and mailing address.

Warrant holders are required to register their name and valid e-mail address and mailing address to the company.

10. Variation

The company shall be entitled to vary these terms and conditions to the extent required by legislation, decisions of courts of law or authorities, or if it otherwise, in the

opinion of the company, is deemed necessary or expedient for practical reasons and provided that the rights of the warrant holders are in no way prejudiced.

11. Confidentiality

The company may not without necessary authorisation disclose information regarding the warrant holders to any third party.

12. Limitation of liability

With respect to the actions incumbent on the company, the company shall be not held liable for damage arising as a result of Swedish or foreign legislation, any action of a Swedish or foreign authority, acts of war, strikes, blockades, boycotts, lockouts, or similar circumstances. The exemption in respect of strikes, blockades, boycotts and lockouts applies also in cases where the company, itself takes or is the subject of such measure or conflict.

Nor shall the company be liable for damage arising in other cases if the company, as appropriate, has exercised normal caution. In addition, under no circumstances shall the company or the bank be held liable for any indirect damage.

If the company is hindered from taking any measure due to a circumstance referred to in the first paragraph, the taking of such measure may be postponed until such hinder no longer exists.

13. Language

In the event of any discrepancy between the English and Swedish language versions of these terms and conditions, the Swedish language version shall prevail.

14. Dispute resolution and applicable law

Any dispute, controversy or claim arising out of or in connection with these terms and conditions, or any legal issues relating thereto, shall be settled by the ordinary courts of Sweden with the District Court of Malmö (*Sw. Malmö tingsrätt*) as the court of first instance.

These terms and conditions and thereto related legal issues shall be governed by and construed in accordance with Swedish law.
